Subject: permit tracking No. SOP-14005  
Sweetwater Valley Farm  
Philadelphia, Loudon County, Tennessee

Dear Heidi McIntyre-Wilkinson,

I wanted to follow up on the letter from your office of April 9, 2014 regarding the above subject. First, I want to thank you on your patience regarding this matter. I to struggle to communicate with Donaldson and realize that this needs to be rapped up. So I have contacted Angela Warden ([awardenconsulting@gmail.com](mailto:awardenconsulting@gmail.com)) to help me finish this matter. She assured me that she could and would get on this in May, however some of my sample results may have to be repeated. Because of this, I would like to request at least three months to finish. We will probably start over on the CNMP also. Please send me any information that you may have received from Donaldson as I may not have it. Again, I want to thank your office and TDEC for being more than patient and very helpful in this matter. I assure you that I am more frustrated than anyone in the lack of progress on my end in this matter.

Sincerely,

John Harrison  
Sweetwater Valley Farm
